*A Biblical, Prayer, and Sunday School
Based Church Growth Strategy and
"Heartset" for the 21st Century!*

IS YOUR CHURCH REACHING OUT AND GROWING?

If the answer is yes, praise the Lord! Unfortunately, too many of our churches have become lethargic and inwardly focused. In the meantime, our world continues to drift and remain spiritually separated from God.

We need the Lord to transform our people into an outwardly-focused family, seeking to impact the world with the good news of Jesus Christ. We need a biblical strategy to guide us in fulfilling the Great Commission of Matthew 28 and Acts 1. We need to follow the Master Church Builder of Matthew 16 and abide in The Vine of John 15. We need a new “heartset.”

Leading research by church growth expert Thom Rainer, involving thousands of churches across the United States and including the most effective evangelistic

churches, reveals that biblical preaching, intentional prayer ministries, and evangelistically-oriented Sunday Schools are still key growth methodologies.

We need a church growth strategy that combines these three tools into a comprehensive plan. We need a new spiritual “heartset” based on scriptural principles and practical experience in the local church.

R.E.A.C.H. (Reaching Every Available Community Household) has been born out of almost twenty years of service through the local church. It has been used by God in a variety of cultural contexts and churches of various sizes.

By combining the teaching of God’s Word, intentional prayer for the lost and for the church, and a church-wide prayer and outreach strategy, **R.E.A.C.H.** presents a tool worth examining. The resulting discipleship and evangelistic opportunities can transform your church and community.

R.E.A.C.H. includes a church growth strategy that delegates church-wide prayer and outreach responsibilities to the

Sunday School. It leads members to be involved in outreach, Bible study, fellowship, ministry, and discipleship.

The **R.E.A.C.H.** outreach plan allows for active members to make contacts according to a flexible schedule and method. It also allows for the coordination of outreach to entire families with teams from various age groups working together. It encourages family discipleship experiences as parents and children serve to reach other families. The plan also includes all-church outreach events to impact your entire community.

The comprehensive **R.E.A.C.H.** prayer strategy involves intensive and consistent intercession for unchurched prospects, inactive members, and active members on a weekly basis. It trains children, young people, and adults in the ministry of prayer. The strategy is designed to enhance corporate church prayer life as well.

If you believe God wants your church to grow and you are seeking a plan that is biblical, proven, and can fit into your regular weekly church programming schedule, consider **R.E.A.C.H.** The unsaved of your community are waiting!
